**EXPLORE BY THE POUR WITHOUT
PULLING THE CORK**

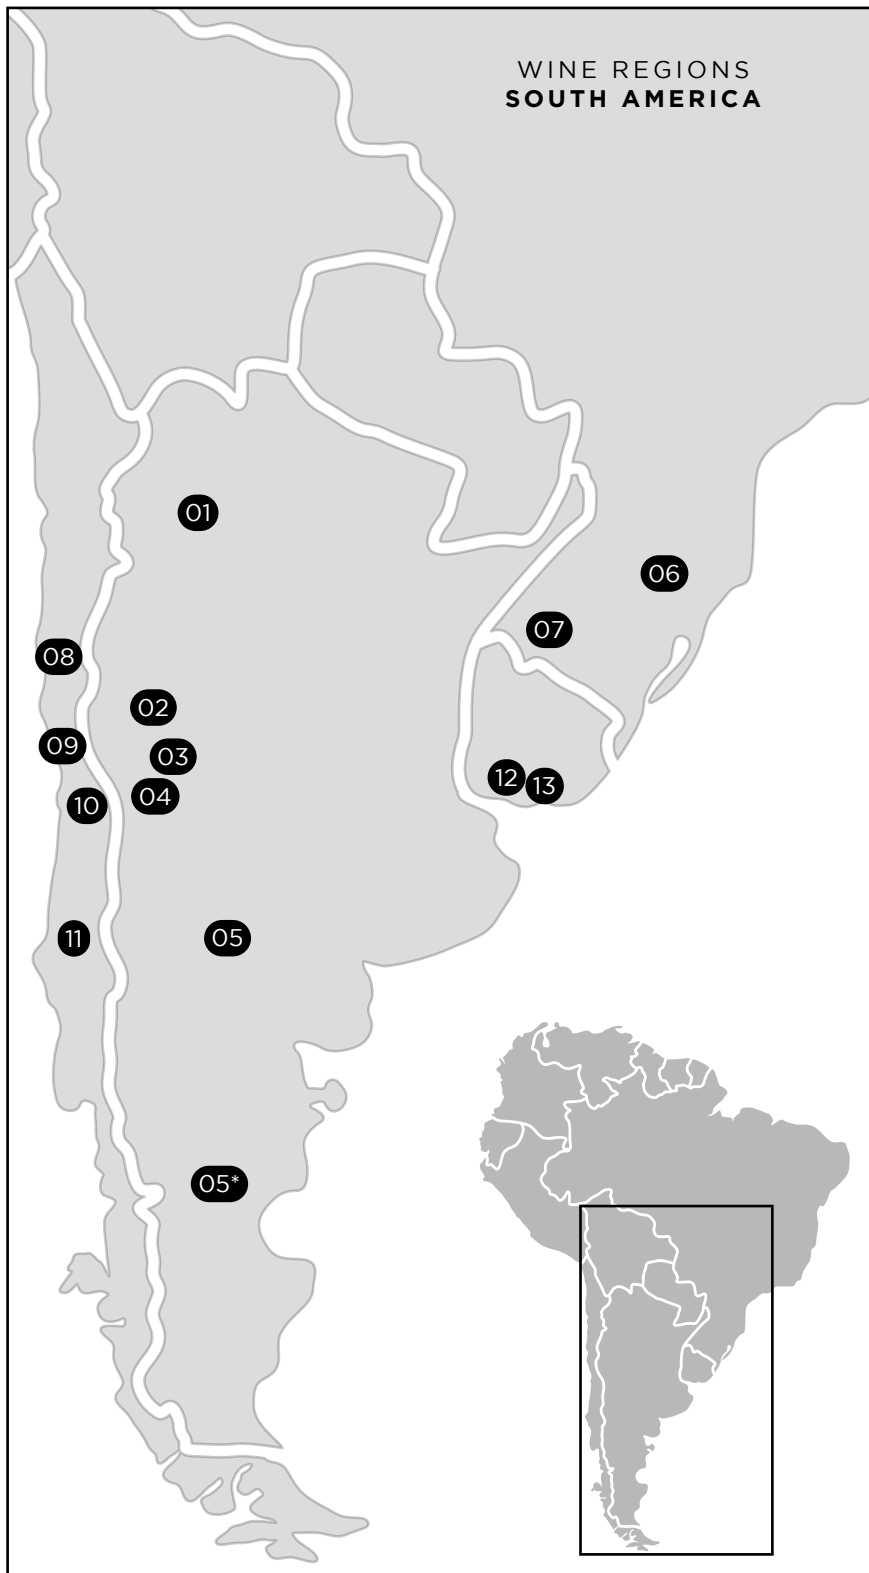

The Coravin™ System allows you to pour and enjoy fine wine without disturbing the natural ageing process by keeping the cork in the bottle, where it's been since it was first sealed at the winery.

Wine flows out but oxygen never gets in, eliminating the problem of oxidation. This process allows the wine remaining in the bottle to continue to evolve naturally.

At Fazenda, you can enjoy our finest wines without having to purchase the whole bottle. Explore the world of premium wines at accessible prices. Look for the Coravin logo on our menu next to carefully selected wines from the range.

We believe South America is the most exciting wine region in the world right now, producing the best wines it has ever made.

Incredible quality for superb value, South American premium wines are only getting better each year.

This is a very large region, so we encourage you to venture into learning about the different areas and the stories behind the people making them world leaders in wine.
